

How Can You Help?

In these days of government cutbacks for conservation of unprotected marine environments, your support is more important than ever. We invite you to join SeaChange and its supporters in achieving its goals and turning the tide of the continual degradation of marine waters surrounding the Salish Sea.

- \$100,000** supports the continuation of underwater debris removals, nearshore marine restoration and educational programs in the Salish Sea coastal community.
- \$75,000** supports a network of First Nations and stewardship groups to monitor and eventually remove an aquatic invasive weed, *Sargassum muticum* adversely affecting kelp and eelgrass habitats
- \$50,000** contributes to monitoring the marine wildlife corridors of the Salish Sea
- \$25,000** contributes to training First Nations Guardians in eelgrass mapping and restoration methods
- \$10,000** supports educational programs in communities surrounding the Salish Sea
- \$ 5,000** funds presentations and trainings for eelgrass conservation
- \$ 1,000** contributes to mapping nearshore habitats
- \$ 500** helps to maintain the 'Sarah V' skiff for mapping eelgrass in shallow waters
- \$ 100** pays for one square metre of transplanted eelgrass

Any type or size, on a one time or monthly schedule, will help to make a difference, We are happy to recognize your contribution through the:

- § SeaChange website
- § SeaChange newsletters
- § Promotional banners at events
- § Appreciation celebrations

At least 85% of your contribution will directly support our programs. Please let us know if you would like to support a particular program. Your tax deductible contribution can be made by cheque to **SeaChange Marine Conservation Society**.

Youth and communities working together can restore the seas.

With your contribution, you would be joining thousands in recovering our marine legacies, for our ancestors, ourselves and future generations.
